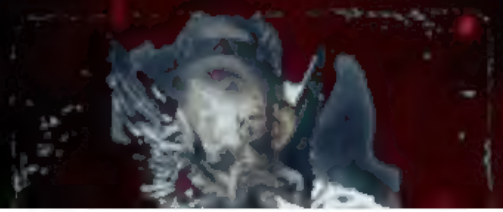
A LIL' HISTORICAL PAST HISTORY TO MY SLAMMING VIDEOS:

You could marvel at how this all started: or why I recorded these videos, to begin with.

Well, I originally started recording the videos back in 2013 and I still record them to this day. My earliest videos were shot at my apartment in Boise, Idaho. The rest of them were (and still are) shot in various places around Los Angeles. The places vary from parks to motel rooms - to public restrooms -to alleys -to friend's bathrooms -to a buddy's basement & everywhere else where my cell phone was accessible.

Alas, a number of these videos aren't in high-quality form. Because of certain circumstances, the quality isn't the greatest. They were shot with either a bad digital camera or perhaps with bad lighting, and for this, I do express regret.



How It All Began:

It became late one night I was partying and playing with a friend. He went online to show me this internet site. The website was referred to as 'Get2thePoint'. The website's slogan read: 'a slamming fraternity for men.' It immediately got my attention and I defiantly wanted to know more about this website. It also greatly surprised me the reality that it had men slamming. I felt that you'd need to be crazy to have a website committed to such controversial and unlawful subject matter. Nevertheless, it certainly intrigued me and I found it to be very interesting. I liked the way it was so specific and appreciated how ballsy it was. Back in those days, it was very taboo to talk

There wasn't any other website on the internet at the time that could compare. Where else could you openly speak and show whatever and everything on the topic? This was a unique, progressive, and new website for gay men who 'slammed'. I thought it was an awesome website and I had to become a member right away!

In the next few weeks, I watched a handful of videos that were published on 'Get2thePoint'. I observed that quite a few of them had been missing something that I felt was very important -the 'reaction'. The videos failed to show their faces. You weren't able to see their facial expressions nor their reaction in the course of and

they were visible in the video. Or, quite frankly, it's perhaps because they may be just bad at making videos... I don't know. Yet all of those reasons are pretty comprehensible and I appreciate them. But, because as it goes for me, all of that didn't matter and it made it more desirable to do. None of that deterred me in any manner. If anything, it made me just want to make a video even more. I didn't give a crap about any darn consequences, plus I knew I could make better videos. So I began recording.

It was going to be only a couple of videos however, the first video I recorded and published became a

so openly about slamming. There wasn't much discussed or shared about it when it came to the topic of slamming- let alone an internet site committed to it! Slamming wasn't nearly as commonplace as it has emerged today. Very little was mentioned about it, yet here's this web page called "Get2thePoint" that spoke so loudly. It had videos of guys slamming, photos with slamming, discussion groups, public hookup ads - you name it! If it was anything in regards to slamming - it was here! It defiantly was a unique website that had no limits and without any apologies was very loud and bold.

after the slam. The videos had been shot close-up to the injection spot, then the video would stop unexpectedly right after the slam was completed. I felt that the videos lacked this key element that made the videos lots more thrilling. You were not seeing what came about after the slam. I knew I ought to do better. Now, I do understand the fact that there can be many motives the videos have been recorded in this manner. It can be out of fear of being visible on the video, cuz it's doing something illegal- Or possibly it's due to the fact they felt that they might be looked down upon and judged in society if

massive hit. It truly surprised me how a whole lot of it turned into favored. I had guys from everywhere writing me and letting me know how much they enjoyed my video. Ultimately, I finished recording more and posted a handful of them online. They continued to be successful and they became increasingly popular. However, all that fame abruptly and all at once ended suddenly - get2thepoint got shut down! The website closed and it was completely offline and was gone for good. All my videos and my all my fans were now all gone as well...it sucked.

SO NOW WHAT?

I eventually began posting my videos on Tumblr. My videos were on there for quite a while. Additionally, they

other users. All because they wanted to make a few sponsors happy. They ended up ruining a social platform

content was removed from their site and for some unknown reason, all my videos were removed. My videos will

received loads of popularity and I acquired thousands of followers. Things were going super til that changed -AGAIN! Tumblr made the unwise and foolish choice to start to censor certain material on their site. My videos began to get red-flagged and censored in which they slowly got eliminated. One after the other they were removed because of the new policy that they had started. No longer did they tolerate nor allow my form of videos to be on their website. No more nudity or drug use. It was all prohibited and no longer allowed. Of course, those videos type of videos were mine. In the long run, they ultimately ended up removing all of my videos and my account was deleted. I think that it defiantly wasn't a very smart decision for Tumblr to change its rules. They ended up losing me and thousands of

that was becoming more and more popular by the day. They ended up destroying a website that had a lot of potential of becoming something even larger. Now Tumblr is nothing like it once was, it's gone now and to be quite honest- TUMBLR SUCKS!*

After Tumblr went to crap and my choices of platforms were getting scarce that allowed my type of content, I started to use Pornhub. Through the years I had quite a collection of videos that I had uploaded to Pornhub. I had acquired thousands of followers as well. Everything looked great and dandy until one day all of that changed as well. In the spring of 2020, Pornhub found itself in hot water with the authorities. They were accused of having illegal, underage porn on their site and among other things. A lot of

be put back as they review them. So far it has been a slow process. I am hoping that all (if not the majority) of them are put back online. After waiting patiently for my videos to come back online, I decided to send an email to the staff at Pornhub and inquire about my videos. It had been over 2 years and my videos still weren't getting put back online. I asked them if they could please put them back, thinking that I was just wasting my time. Yet, to my wonderful surprise in a couple of days, all of my videos were back online on the world wide web once again. I was truly amazed!! All I can say is that the staff at Pornhub do rock -THANK YOU PORNHUB! If you aren't already following me then I'd have to ask: "why the fuck not?!" If you aren't, then start now by clicking HERE! Go check it out!

Now with a limited amount of websites to have my videos on. (or even allow to be on). I finally decided on creating my website. A place where I could post my videos and share them with everyone and not have to worry about them being removed. So I created

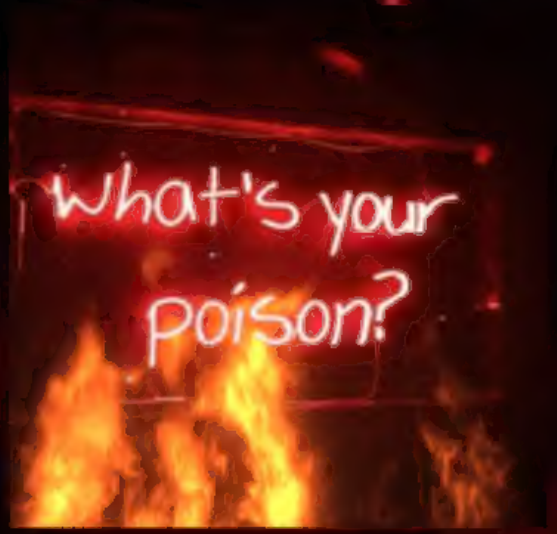
'BBcumBoi's Cyberworld of Sex, Drugs & a Camera'.

SO GET READY TO SEE MY VIDEOS!

All you have to do is click the devil's dick.

You see, as you continue to scroll downward,
you will eventually come across this kinky, nasty-looking red devil.
Don't be intimidated by his appearance though. You can't let his sinister grin and/or enormous dick scare you off. He is waving a syringe to get the attention cuz he wants to help you by leading you in the 'right direction & right 'to the point of my video-slamming collection.
It will require that you get him off first though by *clicking his dick.*
(I'm sure that you won't mind a tiny bit though, huh? :)

I really hope you enjoy my videos & thank you to everyone!



As a reminder, it may take a minute for the videos to completely load. The speed, of course, depends mostly on the speed of your internet connection.

-Please be patient.

If you are still having issues with the videos loading, I recommend doing a speed check with an app. You can check your internet speed by clicking here. If you discover that your internet speed isn't as it's supposed to be, contact your internet provider and raise some hell & demand that you want a faster speed. Another option is resetting your modem, this may be the easiest & most effective way to increase your internet speed.

If you are having any difficulties in trying to view my videos- please let me know.
